

# Heads up: Proper use of MASKS

presented by your ZCC Cutting Tools Europe Taskforce Team

1.

## Use mask correctly:

- Fits properly and fits tightly
- Change after saturation
- Do not touch your face

2.

## Required protective measures and rules of conduct:

- Clean your hands before and after use
- Hold mask in front of mouth and nose, fasten with the bands at the top of the head and in the neck area behind the ears
- Press on the noseband
- Present Mask pleasantly to the face with the lower edge, Positioning the chin
- Do not remove or adjust during use
- Do not touch the outside of the mask
- Dispose of: directly without intermediate storage in a waste bin with a lid
- Warning: certain beard shapes partially reduce the tightness

3.

## Measures for reuse:

- Each person uses their own mask
- Do not contaminate the inside
- Storage: Open Space, in a limited area that is not accessible to others
- Put on using gloves, which after use are disposed of directly in a waste bin with a lid
- Disinfect the storage location
- Do not clean mask with disinfectant
